

DR. NILDA PEREZ

Strategic Innovator. Authority & Intelligence Systems Builder.

She sees the gap. **Then she builds what is missing.**

BOOK DR. NILDA >

BIO

Dr. Nilda Perez

Dr. Nilda Perez is an LCSW with 30 years of clinical experience, a strategic foresight expert, and the founder of Behavioral Health Reimagined and NeuroLegal Institute™. She is the creator of the proprietary NeuroLegal Method™, developed at the intersection of trauma, clinical evidence, and immigration credibility. Through the Clinical Authority Workshop™, she helps clinicians identify, name, and structure the distinct authority within their own expertise.

SIGNATURE SPEAKING TOPICS

Four talks. Four rooms. One throughline.

01

Trauma, Credibility & Humanitarian Immigration

REAL ID Act 2005 placed credibility with the trier of fact. Trauma-driven memory inconsistencies are clinically predictable.

02

When Expertise Is Real but Still Invisible

Why clinical depth without strategic positioning stays invisible, and how clinicians build the authority infrastructure they need.

03

Human-Led AI for Work That Requires Judgment

AI predicts. Experts understand. Final decisions about diagnosis, risk, and care must remain with human judgment.

04

Strategic Foresight & the Case for Building

When systems misread people or lose expertise, the answer is often a new method, institution, or software.

AUDIENCES SERVED

Where her work lives

Immigration attorneys · refugee organizations · clinicians and clinical leadership · healthcare innovators · AI and technology forums · judicial education programs.

AUDIENCES LEAVE WITH

What they take back to Monday

- A framework for translating expert knowledge into evidence.
- Research-backed language for the structural problems they have been working around.
- An actionable next step. A system, not
